

Thank You

I am here today because your company took action to say that child abuse is not a joke.

After DJ's at radio station KRXQ in Sacramento verbally attacked transgendered children and promoted both verbal and physical abuse of TG kids, your company made the decision to stop advertising on KRXQ.

Making the right choice should not affect your business. You are, in fact, getting additional business and increased loyalty because of your company's stand. Please share this card with management to let them know that doing the right thing paid off.
